

Roe 227A

Technology Instructions

1. Open the flip-top box on the tabletop. 

2. Pull out the VGA cable and audio cable and connect them to your laptop computer. 

- a. Press the **POWER ON/OFF** button to turn on the TV on the wall. 

- b. To display your laptop computer, press **PC**. (You may need to toggle the laptop's display; how you do that depends upon your laptop.) 

- c. If your presentation contains audio, use the **VOLUME buttons** to adjust the sound. 

3. When finished, press **POWER ON/OFF** to turn off the TV.
