Central College
is Central to your world.

• **Relationships are Central.**
  Central is family. People and relationships set Central apart, providing lifelong connections.

• **Personalization is Central.**
  No two Central educations are alike. Each is individualized, reflecting the passions and dreams that are Central to a student’s world.

• **Involvement is Central.**
  A Central education is not limited by classroom walls. Students immerse themselves in a host of co-curricular and extracurricular programs, internships and service activities throughout the world, preparing for careers that will require continual adaptation and growth.

• **Transformation is Central.**
  Earning a Central degree is not a transaction. A Central education is a transformational experience that provides direction for each graduate’s life.
